

survey sheet online material moisture system

Please fill out this survey sheet as completely as possible.

Return this completed survey sheet to the above mentioned contact address

company name:			
address:	factory / country:		
	project name:		
contact person:	person responsible:		René Zrim
mail address:	mail address:		r.zrim@schaller-gmbh.at
telephon number:	telephon number:		+43 3178/28899 - 413

Indicators

absolute moisture content: _____ (yes / no)
 relativ humidity: _____ (yes / no)
 ambient air temperature: _____ (yes / no)
 temperature of the material: _____ (yes / no)
 other indicators: _____

Measuerd material

measured material / species: _____

material consistence: _____ (whole corn, granuels, flour, ...)
 measuring point: _____ (band conveyor, screw conveyor
 into, before or after the dryer, ...)

hektolitre weight or bulk density: _____ kg / 100 litre
 automatically bulk density detecion: _____ (yes no, existing)
 number of different species: _____ pcs.
 rate of speed: _____ m / min
 whole moisture measuring range: _____ % (from - up to)
 core moisture measuring range: _____ % (from - up to)
 relistic expected accuracy: _____ % (absolute)
 temperature range of the material: _____ °C (from - up to)
 temperature range of the ambient air: _____ °C (from - up to)

Measuring devices

number of needed measuring points: _____ pcs.
 degree of protection: _____ IP
 power supply: _____ Voltage

Analysies / recording

shown on a LC-display: _____ (yes / no)
 analog output: _____ (4-20 mA, ...)
 interface output: _____ (RS485, 422, fieldbus, ...)
 additional control nedeed: _____ (yes / no)
 2D - measurement recording software: _____ (yes / no)
 3D - measurement recording software: _____ (yes / no) only by travers.

Miscellaneous:
