

humimeter for Paper/Board

NEWS from the climatic chamber!
VERY QUICK BALANCING - SIMPLE HANDLING

Schaller Messtechnik provides professional moisture meters & comprehensive solutions.

Climatic chamber with monitoring and measuring system for moisture

Completely leak tight chamber which creates an atmosphere with a controllable relative humidity. This allows different materials to be adapted to the required conditions.

Features:

- Analysis system for LF moisture transmitter
- Display shows moisture and target value
- Control range: 10 to 90% r.h
- Resolution and setting step: 0.1% r.h.
- Power supply: 220 Volt
- Optional available with interface and date recording software

Please click here for [further information](#).

humimeter PM4 paper moisture meter

For paper manufacturers for receiving control and measurement at warm, running paper rolls with infrared temperature measurement

Features:

- Measuring range: 1 to 25% water content
- Resolution: 0.1% water content
- Measuring depth: 50mm
- Paper temperature for determination of water content: 0 to +80°C / 32 to 176°F
- Non-destructive measurement, also through the packaging
